Antiques. Interior Design & Installation. Custom Furniture.

About Us

Since 1979, Heritage Arts has stood as one of Cochin's most revered antique establishments. Heritage Arts & Architecture is its natural evolution — carrying decades of curatorial excellence into the world of bespoke furniture and interior design, where history and artistry find their finest expression.

Craft. Heritage. Soul.

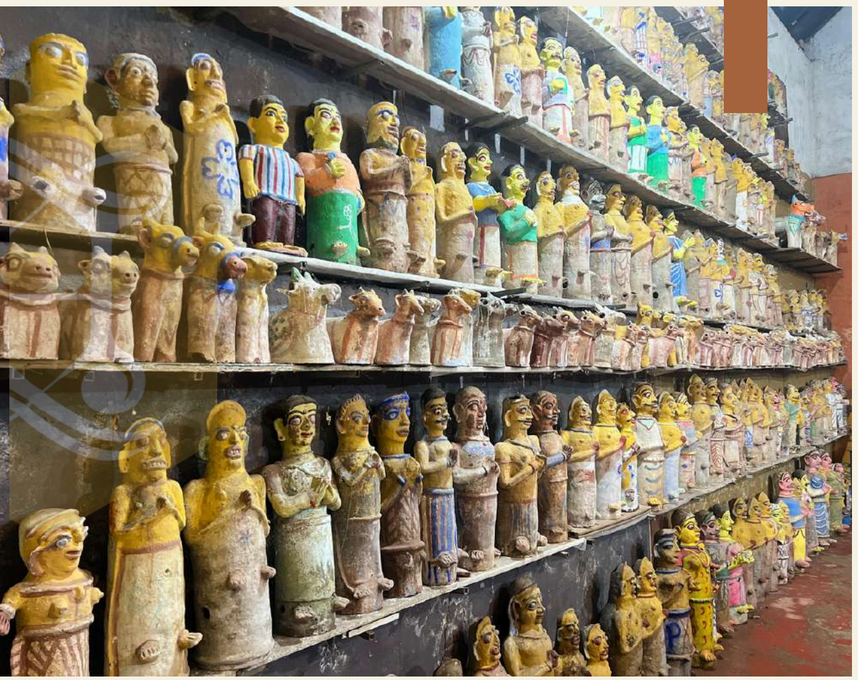
Three words. One philosophy.

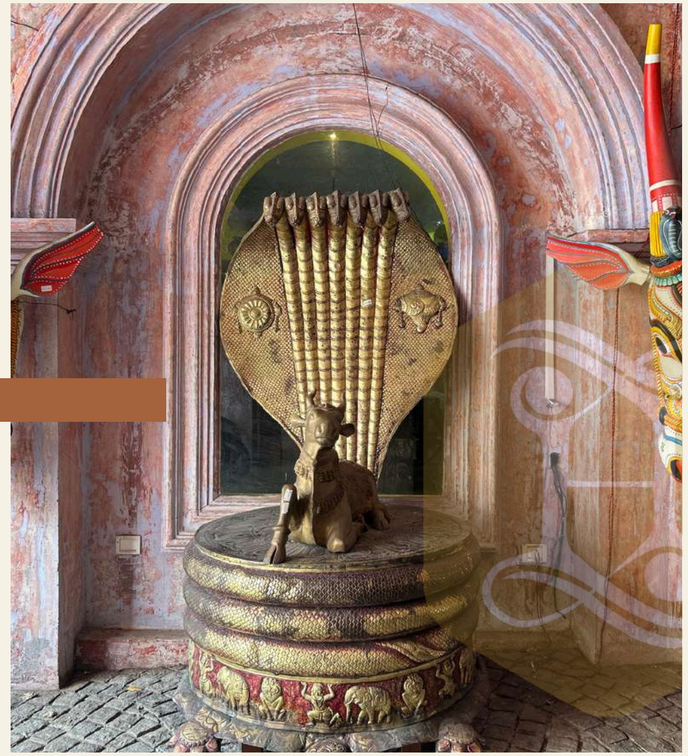
Our interiors are compositions, not collections. Our furniture is architecture, not ornament. And our woodcraft is, above all, an act of devotion and discipline.

ANTIQUES

At Heritage, discover — something *old*, something *singular*, something that was *always meant to find you*.

Every piece has lived a life before yours — chosen for its rarity, its story, and the hands it has passed through.





A curated world

of antique furniture, rare curios, ancient sculptures, and objects of quiet, enduring beauty.

Heritage Interior Solutions

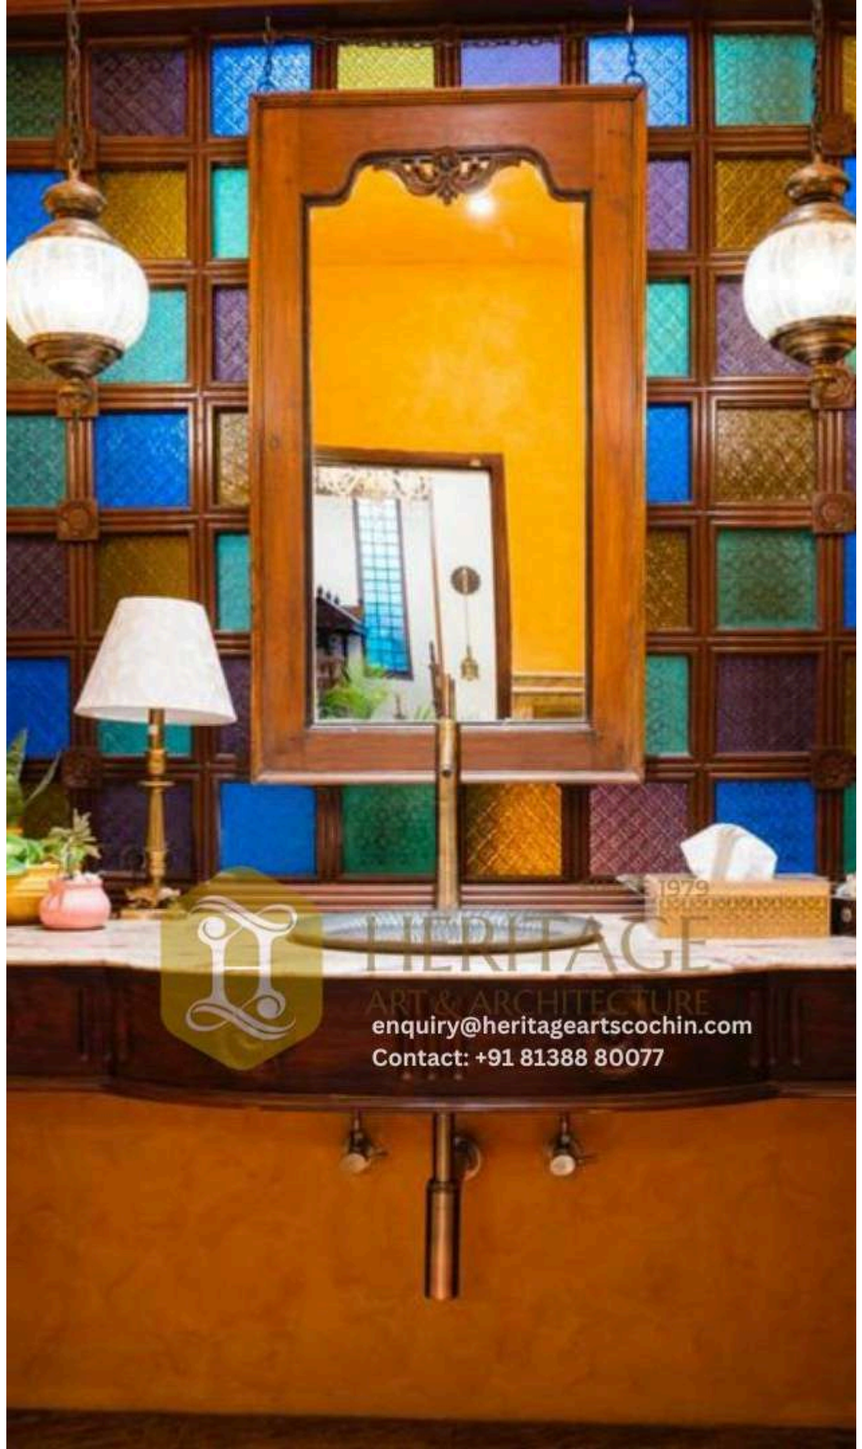
Modern.

Functional.

Vintage Reimagined.

A design philosophy that honours the past without being bound by it — where antique sensibility meets contemporary living, and every space is as beautiful as it is liveable.

A Glimpse Into Our Projects



Here, Tradition Meets Contemporary Living...

Concept

Every project begins with a conversation about how you live, what you love, and the story you want your space to tell. We translate that into a design direction that is distinctly yours.

Design

Our in-house designers craft interiors where traditional craftsmanship and modern function coexist without compromise. Vintage in character, practical in every detail.

3D Visualisation

Before a single nail is driven, you see your space in full — every material, every proportion, every light source rendered with precision.

Manufacture

From workshop to wall, every furniture piece and fixture is crafted in-house — in authentic teak, reclaimed wood, cane, and brass.

Installation

We don't hand over a flat-pack and leave. Our team oversees every placement, every finish, every final detail, until the space is exactly as it was imagined.

Custom Furniture

Made to Last. Made for You.

We do not design for seasons.

Every piece is designed around your space, your life, built to become the heirloom your home deserves.

Our forms are drawn from the deep well of Indian and colonial craft traditions — silhouettes that have outlasted every trend and will outlast the next.
